ELSEVIER

Lipids and Lipid Metabolism

Vol. 1349, 1997

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Author Index

Atsumi, G.-i., Murakami, M., Tajima, M., Shimbara, S., Hara, N. and Kudo, I.
The perturbed membrane of cells undergoing apoptosis is susceptible to type II secretory phospholipase A_2 to liberate arachidonic acid (1349) 43
Avella, M., see Botham, K.M. (1349) 257

Becker, A., see Hrboticky, N. (1349) 211
Becker, F.F., see Chan, K.L. (1349) 182
Beckert, D., see Lasch, J. (1349) 171
Bell, J.D., see Wilson, H.A. (1349) 142
Botham, K.M., Avella, M., Cantafora, A. and Bravo, E.
The lipolysis of chylomicrons derived from different dietary fats by lipoprotein lipase in vitro (1349) 257
Bravo, E., see Botham, K.M. (1349) 257
Bremer, J., see Høvik, K.E. (1349) 251

Cantafora, A., see Botham, K.M. (1349) 257
Chan, K.L., Gascoyne, P.R.C., Becker, F.F. and Pethig, R.
Electrorotation of liposomes: verification of dielectric multi-shell model for cells (1349) 182
Cho, Y. and Ziboh, V.A.
A novel 15-hydroxyeicosatrienoic acid-substituted diacylglycerol (15-HETrE–DAG) selectively inhibits epidermal protein kinase C-β (1349) 67
Choudhury, Q., see Croxtall, J.D. (1349) 275
Cianflone, K., see Vu, H. (1349) 97
Croxtall, J.D., Choudhury, Q., White, J.O. and Flower, R.J.
Tamoxifen inhibits the release of arachidonic acid stimulated by thapsigargin in estrogen receptor-negative A549 cells (1349) 275
Curtiss, L.K., see Spangenberg, J. (1349) 109

Del Carmen Fernández-Tomé, M., Speziale, E.H. and Sterin-Speziale, N.B.
Endogenous prostaglandins regulate rat renal phospholipid 'de novo' synthesis (1349) 55
Dhalla, N.S., see Liu, S.-Y. (1349) 264

English, D., see Siddiqui, R.A. (1349) 81

Flower, R.J., see Croxtall, J.D. (1349) 275
Fu, D.-x., see Yang, D.-w. (1349) 25

Gascoyne, P.R.C., see Chan, K.L. (1349) 182
Guo, Z., see Nishida, H.I. (1349) 222

Handa, S., see Matsuda, K. (1349) 1
Hara, N., see Atsumi, G.-i. (1349) 43
Hasday, J.D., see Viscardi, R.M. (1349) 157
Hays, J.-A., see Liu, S.-Y. (1349) 264
Hernández, M.L., Martínez, M.J., López de Heredia, M. and Ochoa, B.
Protein phosphatase 1 and 2A inhibitors activate acyl–CoA:cholesterol acyltransferase and cholesterol ester formation in isolated rat hepatocytes (1349) 233
Horie, Y., see Karbowski, M. (1349) 242
Hoshino, H., see Yang, D.-w. (1349) 25
Høvik, K.E., Spydevold, Ø.S. and Bremer, J.
Thia fatty acids as substrates and inhibitors of stearoyl-CoA desaturase (1349) 251
Hrboticky, N., Becker, A., Kruse, H.-J. and Weber, P.C.
Increased cellular triglyceride levels in human monocytic and rat smooth muscle cells after lovastatin (1349) 211
Huang, W., see Wilson, H.A. (1349) 142

Ishizuka, I., see Matsuda, K. (1349) 1
Iwai, H., see Yang, D.-w. (1349) 25

Jakstys, B.P., see Nishida, H.I. (1349) 222
Judd, A.M., see Wilson, H.A. (1349) 142

Kalant, D., see Vu, H. (1349) 97
Karbowski, M., Kurono, C., Nishizawa, Y., Horie, Y., Soji, T. and Wakabayashi, T.
Induction of megamitochondria by some chemicals inducing oxidative stress in primary cultured rat hepatocytes (1349) 242
Kasama, T., see Matsuda, K. (1349) 1
Klock, D.G., see Nishida, H.I. (1349) 222
Kruse, H.-J., see Hrboticky, N. (1349) 211
Kudo, I., see Atsumi, G.-i. (1349) 43
Kurono, C., see Karbowski, M. (1349) 242

Lasch, J., Schönfelder, U., Walke, M., Zellmer, S. and Beckert, D.
Oxidative damage of human skin lipids. Dependence of lipid peroxidation on sterol concentration (1349) 171
Liu, S.-Y., Yu, C.-H., Hays, J.-A., Panagia, V. and Dhalla, N.S.
Modification of heart sarcolemmal phosphoinositide pathway by lysophosphatidylcholine (1349) 264
Lobo, L.I.B. and Wilton, D.C.
Combined effects of sphingomyelin and cholesterol on the hydrolysis of emulsion particle triolein by lipoprotein lipase (1349) 122
López de Heredia, M., see Hernández, M.L. (1349) 233

Martínez, M.J., see Hernández, M.L. (1349) 233
Matsuda, K., Ishizuka, I., Kasama, T., Handa, S., Yamamoto, N. and Taki, T.
Structure of a novel phosphocholine-containing aminoglycoglycerolipid of *Mycoplasma fermentans* (1349) 1
Murakami, M., see Atsumi, G.-i. (1349) 43

Nilsson, Å., see Zhou, L. (1349) 197
Nishida, H.I., Klock, D.G., Guo, Z., Jakstys, B.P. and Nishida, T.
Phospholipid transfer protein can transform reconstituted discoidal HDL into vesicular structures (1349) 222

Nishida, T., see Nishida, H.I. (1349) 222
Nishizawa, Y., see Karbowski, M. (1349) 242
Ntambi, J.M., see Waters, K.M. (1349) 33

Ochoa, B., see Hernández, M.L. (1349) 233
Ohvo, H., Olsio, C. and Slotte, J.P.
Effects of sphingomyelin and phosphatidylcholine degradation on cyclodextrin-mediated cholesterol efflux in cultured fibroblasts (1349) 131
Olsio, C., see Ohvo, H. (1349) 131

Panagia, V., see Liu, S.-Y. (1349) 264
Pears, C., see Phillips, P. (1349) 72
Pethig, R., see Chan, K.L. (1349) 182
Phillips, P., Thio, M. and Pears, C.
A protein kinase C-like activity involved in the chemotactic response of *Dictyostelium discoideum* (1349) 72

Schönfelder, U., see Lasch, J. (1349) 171
Shimbara, S., see Atsumi, G.-i. (1349) 43
Siddiqui, R.A. and English, D.
Phosphatidic acid elicits calcium mobilization and actin polymerization through a tyrosine kinase-dependent process in human neutrophils: a mechanism for induction of chemotaxis (1349) 81
Slotte, J.P., see Ohvo, H. (1349) 131
Sniderman, A.D., see Vu, H. (1349) 97
Soji, T., see Karbowski, M. (1349) 242
Spangenberg, J. and Curtiss, L.K.
Influence of macrophage-derived apoprotein E on plasma lipoprotein distribution of apolipoprotein A-I in apoprotein E-deficient mice (1349) 109
Speziale, E.H., see Del Carmen Fernández-Tomé, M. (1349) 55
Spydevold, Ø.S., see Høvik, K.E. (1349) 251
Sterin-Speziale, N.B., see Del Carmen Fernández-Tomé, M. (1349) 55
Strauss, K., see Viscardi, R.M. (1349) 157

Tajima, M., see Atsumi, G.-i. (1349) 43
Taki, T., see Matsuda, K. (1349) 1
Thio, M., see Phillips, P. (1349) 72

Uchida, T.
A novel high-molecular mass mammalian ethanolamine kinase (1349) 13

Vernon, L.P., see Wilson, H.A. (1349) 142
Viscardi, R.M., Strauss, K. and Hasday, J.D.
Oleic acid stimulates rapid translocation of cholinephosphate cytidylyltransferase in type II cells (1349) 157
Vu, H., Cianflone, K., Zhang, Z.J., Kalant, D. and Sniderman, A.D.
Characterization and modulation of LP(a) in human hepatoma HEPG2 cells (1349) 97

Wakabayashi, T., see Karbowski, M. (1349) 242
Waldrip, J.B., see Wilson, H.A. (1349) 142
Walke, M., see Lasch, J. (1349) 171
Waters, K.M., Wilson Miller, C. and Ntambi, J.M.
Localization of a polyunsaturated fatty acid response region in stearoyl-CoA desaturase gene 1 (1349) 33
Weber, P.C., see Hrboticky, N. (1349) 211
White, J.O., see Croxtall, J.D. (1349) 275
Wilson, H.A., Huang, W., Waldrip, J.B., Judd, A.M., Vernon, L.P. and Bell, J.D.
Mechanisms by which thionin induces susceptibility of S49 cell membranes to extracellular phospholipase A_2 (1349) 142
Wilson Miller, C., see Waters, K.M. (1349) 33
Wilton, D.C., see Lobo, L.I.B. (1349) 122

Xu, N., see Zhou, L. (1349) 197

Yamamoto, A., see Yang, D.-w. (1349) 25
Yamamoto, N., see Matsuda, K. (1349) 1
Yang, D.-w., Iwai, H., Yamamoto, A., Fu, D.-x. and Hoshino, H.
Effect of phospholipids on adsorption and penetration of human T-cell leukemia virus type I (1349) 25
Yu, C.-H., see Liu, S.-Y. (1349) 264

Zellmer, S., see Lasch, J. (1349) 171
Zhang, Z.J., see Vu, H. (1349) 97
Zhou, L., Xu, N. and Nilsson, Å.
Tissue uptake and interconversion of plasma unesterified ^{14}C linoleic acid in the guinea pig (1349) 197
Ziboh, V.A., see Cho, Y. (1349) 67
